

Midwest Vascular Collaborative

September 27, 2024 5-7pm

Remote

Meeting Highlights/Action Items:

1. LTFU fell from 82% to 69%. One center felt that for them it was due to transitioning to a third-party data abstraction vendor and EPIC Care Everywhere was blocking the ability to see outside records. Large referral region and getting patients back was also sited.
2. Pre-Op Smoking – IUH actively educating patients and families. Directed to VQI.org and SVS for additional materials
3. Trauma included in D/C med measure. Yes, but the recommendation for discharge if it is a 19 yo MVA to record in medical record no statin ordered because it is “no for medical reason”.
4. Request for new Analytic engine report for all LOS measures. Report mean, median at 1 day, 2 days and 3 days.
5. Higher than most EVAR Sac Diameter = working with Radiology and using Smart Phrases.

Remote attendance:

Amy McCain
Ashley Gutwein
Beau Bush
Bethany Taylor
Brad Thomas
Brian Banks
Carol Kotva
Caroline Morgan
Charles Bower
Cheryl Stopper
Dave Osterman
David Peterson
Dennis Wolf
Eleftherios Xenos
Erika Ugianskis
Gregory Westin
Heather Schulte
Jamison Wilson

Jen Harris
Jessica Volz
Karen Wethington
Lillian Camino
Megan Gibas
Megan Pepin
Michelle Delda
Michelle Torres
Missy Eggleston
Nathan Albertson
Nathaniel Dew
Neil Mascarenhas
Noah Scherrer
Patricia Blake
Rachel Renner
Ronnica Adams
